❖ **About the offered product**

An online platform that guides you through the process of developing global cost of capital estimates, a key component of any valuation analysis. The Cost of Capital Navigator and its four modules guides the user step-by-step through the process of estimating the cost of capital, allowing either Kroll's global data or custom inputs to be incorporated into the analysis. Our solution is comprehensive, providing users with multiple alternative models and corresponding required inputs as they use their professional judgment in developing their own estimates. Users can export their work or download data using the Navigator Excel add-in directly into their own spreadsheets, saving time and ensuring a consistent, accurate analysis. Results can also be downloaded into a standard report format suitable for review by auditors and other stakeholders with inputs and assumptions clearly documented. 50% discount for each module in the Cost of Capital Navigator to the CFA Society India members
